Re: Identifying genetic vulnerabilities in cancers driven by defects in DNA-damage response

Dear Ms. Thompson:

It is a pleasure to send the enclosed check for use by Sriganesh Srihari, PhD, a Research Officer in your institution's training program. As you know, he was selected to receive an AACR Scholar-in-Training Award – Supported by Susan G. Komen®. Please note that his research was considered to be of significant quality - with Scholar-in-Training Awards presented to fewer than 25% of applicants - the applicant pool was highly competitive.

As part of the eligibility requirements, he must attend the 2015 San Antonio Breast Cancer Symposium and present the abstract referenced. He is scheduled to give a poster discussion presentation (Program # PD6-05) in Poster Discussion Session 6 on Friday, December 11, 2015 between 5:00 pm and 7:00 pm. The funds are to be used to defray his travel, subsistence, and registration expenses to attend the symposium. He is required to make his own housing and travel arrangements, and to pay the symposium registration fee. The institution may not deduct any overhead expenses from the funds. Please note that no government funds are used in support of this Award.

The \$1,000 stipend, which is to be used to help defray the expenses he will incur to attend the Symposium, has been made payable directly to your institution. You are asked to make the necessary arrangements that will enable him to access the funds.

Please email me if you have any questions (sabcs@uthscsa.edu) or call 210-450-1550 if I may be of any assistance.

Sincerely,

Rich Markow
Director, Symposia

Enclosure: Check in US dollars
